

Daniel Denney

Fullstack Developer

Phoenix, Arizona | 602.410.5360 | daniel@denneythe.dev | [Github](#) | [Linkedin](#)

A full-stack engineer proficient in JavaScript, HTML, CSS, and React. I also have experience in customer service and working with and managing small teams, which gives me an edge in communication and productivity. I am pursuing a career with a company I can learn and grow with.

SKILLS

Front-end: HTML, CSS, JavaScript, React with Hooks, Bootstrap
Back-end: Node, Express, Java, PostgreSQL, Git, REST APIs
Testing: Mocha, Chai, Jest
Software: VSCode, Github, Postman, ElephantSQL, DBeaver, Vercel
